Chargepoint make	
Chargepoint model	
Rated power (kW)	
Proposed mounting location	
Installing engineer	
Planned installation date	

6. Terms of consent

By signing this form, the landlord and tenant agree to the following terms.

Installation costs

- The landlord will not be responsible for any cost of supplying, installing, or commissioning the chargepoint.
- All installation costs are met by the tenant, net of any government grant secured.

Electricity usage

- The tenant is responsible for the cost of all electricity consumed by the chargepoint.
- Where a separate metering or sub-metering arrangement is required, the tenant will arrange and fund this.

Liability and damage

- The tenant is responsible for any damage to the property directly caused by the installation, use, or removal of the chargepoint.
- The installer carries out the work in accordance with relevant wiring regulations (BS 7671) and OZEV/manufacturers requirements and holds appropriate insurance for the works undertaken.
- The landlord's existing buildings insurance and any lease terms are unaffected other than as expressly set out in this form.

Ownership at end of tenancy

Tick or complete whichever option applies.

- Option A — Fixture: the chargepoint remains installed at the property as a fixture and becomes the landlord's property at the end of the tenancy, at no cost to the landlord.
- Option B — Removal: the tenant may remove the chargepoint at the end of the tenancy, at their own cost, and will make good any resulting damage to the property to a reasonable standard.

Option selected: _____

General

- Our installer's accreditation and public liability insurance are available on request
- This consent relates solely to the chargepoint installation described above and does not otherwise vary the terms of the tenancy agreement.
- This form does not constitute legal advice; either party may wish to seek independent advice before signing.
